I, C. Block Cells A-F, Hereby file a Grievance for the following reason(s): [Be Specific. Include dates/times, Officers involved and/or witnesses if applicable]

Cells A-F - Block C - No A.C. / Air Flow / Free Air Return

On going problem, that has gotten out of control. No A.C., the A.C. has not worked for months, no free Air exchange, NO free air return or intake. Zero air movement or circulation in cell block C & D. All Staff and Under Sheriff are aware of the situation and living conditions (For Months). And still have chosen to be derelict in their duties in the operation of the Mineral County Detention center. The conditions in the facility are inhumane and unacceptable. The staffs half hearted attempt with the Under Sheriff knowing the addition of fans to mask and pacify the situation. The on going lies passed by staff of A.C. Being fixed and air flow was restored is wrong information. Heat index in the cells at night range between 90-95°. The population is trying to find relief by sleeping on the floors around toilets. Suggestions we have made to staff. 1) Fix A.C. properly for correct fix 2) In the mean time at night leave cell doors open, add two more fans, to circulate the and keep cell temps cool. These heat Indexs are in humane, detrimental to health and mental health.

On friday i as well was told about the viewing of us getting undressed,in our area, going to and from the shower stall area. We put our cloths on the designated area, along ith our towel. We can be seen by co's, lady inmates, male inmates, 911 dispatchers, any one going to and from court. This not only an issue in d-pod. As told many times in c-pod when people have visits on the kiosk that they can view inmates drying off. The cell d has a 24 hour camera so wrong in so many ways. And b-pod you can not dry off or get dressed or undressed with out being viewed by all the same people listed above. I have been in every pod on this greivance, the cell with camera and now d-pod. This problem with us inmates being viewed has been brought up to and diplayed the visual to co may, co ratliff in b-block, when this was first brought up 3 pus months ago in c-block we had stuff covering the shower sheild and all gt locked down. This know by co rizzy, ratliff, scott, and chaterly, i have brought that up sinse to ratliff and nothing. Now i am in d-block and the view and lack of privacy during showers and rest room is wrong. A person showering in our eesignated area with our designated cloths put on the designated place we are viewed naked getting undressed, going to the shower, when done going to reteive our towel , drying off and getting dressed. This wide view of viewing area has been seen by , 4 different inmates coming back from court, co scott,co ratliff, co chatterly This is wrong and wrong and vialts a person in so many ways. Every pod also the other inmates in everyone of those day rooms can watch and obseve somene showering as well as talking on the phone

Also the numbers both on the prea sign taped in the window of each pod is wrong and no one can be reached. And the number in the inmate hand book is wrong as well. I guess our safety and rights to safe be safe from sexual viewings can not be delt with other than this.

### Statement

I, Greg Heron, Hereby file a Grievance for the following reason(s): [Be Specific. Include dates/times, Officers involved and/or witnesses if applicable]

The B.S. that goes on back and forth between Tiffani the 911 Dispatcher who is Not a cop / CO / she is a civilian that is it. We heard this bullshit over the P.A. or intercom for an hour plus. Her Crappy attitude / Rudeness over the intercom is Wrong / not professional and rude. we do not need to hear her opinions 1. how and why we shave our chests, who we trying to impress

2. People who is drugg are not normal / Loser or wrong

3. How ugly Guys still look threw 3 layers of glass

4. How she likes big bannanas or thick was the exact words

5. And so many others that are rude, sexist, wrong, degrading. Who and the hell does she think she is? She is no one we care to listen to. If she wants a date there is visiting 2 times a week. She is rude and many of your CO's know and say it is wrong! This place can not make its own rules

Know where has this ever happened in all the years locked up. I am blown away why this County Jail thinks they can get away with so many illegal, wrong, rule breaking, civil rights breaking non-stop. It is wrong, unprofessional and you guys put up this new Inmate handbook and don't even follow the rules. And this grievance form is a joke they are 3 pages all work with yellow, pink and white carbon copy so all get a copy. And as I said many of your CO's are tired of her shit as well. This shit has gone too far.

**To: Inmate Greg Herron**

**From: Undersheriff Wayne Cashman 54-02**

**Subject Greg Herron's grievance**

**Date: 08/08/22**

---

Inmate Herron,

I am in receipt of your grievance dated 08/04/22, I appreciate your concerns and your efforts to let me know about this issue. I have addressed this issue with all parties involved. I can assure you this will not occur again! You are correct, we have policies and procedures in place for both employees and those detained. A policy violation by either will be dealt with swiftly and equitably. I again appreciate your letting me know this occurred and I can guarantee you will not have to deal with this again.

Please keep in mind, I don't work in the jail on a daily basis, in your grievance you allege other policy violations by our detention officers, please feel free to send me your concerns so I may review and address them as they happen, as in this instance. I cannot fix what is broken, if I don't know it is broken. Your grievances help me, help you all, by assuring we are doing things correctly and by the policy manual.

I am writing a follow up list of violations and things that are still being done, have not been addressed and have not changed.

Medical - I was seen at the hospital for labs concerning my cancer and mental health

- they took blood and did my lab work over 3 weeks ago and will not or have not gotten me back in to get my blood & lab results back to me and go over them

- they put me on new mental health meds Prozac and and the doctor said she wanted to get me back in, in two weeks to see how they were working and make adjustments.

- I am not doing well on the Prozac at all and have been having vivid night more about hanging myself off the top bunk and stepping out in front of moving semi's. I have put in a kite multiple times only to be reprimanded by CO's especially CO Scott. She thinks she is a doctor (or wants to play one and tell us what we need and don't need and not any one of the facility is a doctor or even close to a nurse)

Page 2

May 29th • CO Scott came in and got on all of our ass's saying there would be repercussions if any more Kites were written about medical.

- Skye Nelson has doctors records (two sets to be exact) that say he was to go see a radiologist and they simply do not want to pay for MRI OR do it.
- They owe the hospital and clinic money and those two do not want to do any more business till the under Sheriff or Sheriff get it figured.
- Medications are handed out by hand from CO's that half the time do not wear gloves.
- The CO's are not qualified or have the certifications to hand out meds.
- They damn sure are not qualified to make judgment calls or decide when we need and don't need a doctor.

I was given a Psyc Med Prozac never been on before and am having suicidal thoughts and it is dangerous as hell to just stop it so what do I do. Get punished for Kite ✓

Mental health is a serious matter when Grievances are filled they do not go to the proper person. CO's read them first and who knows what happens. This place is corrupt and violates our rights daily.

- PREA they do not even have the proper #s up on the posters to call tried it did not work
- my mom has documented all on the not being able to shower, dry off or get dressed or undressed without being seen by, people walking up and down hall, day room, I'll dispatch do to the holes and other inmates being brought to and from court or to visits and lawyer calls. We never know when they are coming down the door and the girls to and from court.

Black mold in the showers.

we have asked for cleaner to get rid of the black mold in the showers

and they will only give us (Simple green) does not kill black mold.

we have asked (I have asked as an inmate worker - who cleans the entire jail - for a scrub brush (ours is shot no bristles at all) they will not get us one and the black mold is in every shower in the jail.

the ventilation system is so plugged and full of mold and debris due to the facility being shut down for so long it is horrible air quality.

the central air does not work it blows hot air so it cooks us out of here

Skye was threatened in a very unprofessional way that if he even look, smiled or tried to say anything to his fiancée at court that he would be locked down for the day when he returned to his pod. - Very unprofessional and unethical. Her demeanor and the way she talks to us is foul & horrible

on suicide watch for pills that were a trial and supposed to be checked and regulated cuz of their negligence. this was a detrimental deal and my cellie stayed up with me for hours.

the other inmate Skye Nelson was there as well in prayer and talking to me thru the doors to comfort me

the untrained unprofessionalism of this place is out of control. I have done years of time and been in numerous jails and have never filed a grievance or a complaint and I am writing every thing this place still does daily to harm our well being, PREA, OUR health and our mental state this is wrong and inhumane and corrupt all this is witnessed by many and all can be backed by multiple people as the Gods truth. ### Statement

PER Inmate Handbook

I, Gregory W. Herron / Inmate Hereby file a Grievance for the following

reason(s): [Be Specific. Include dates/times, Officers involved and/or witnesses if applicable]

CHURCH SERVICES, Religious services, OVERSIC ARREST

SO when I first got here I saw the lack of or should I say NO RELIGIOUS SERVICES. ONLY 4 BIBLES A FULL A LARGE PRISON NEW KING JAMES AND A HARD BACK KING JAMES. Which was taken from me during a shake down because it was a hard back. SO after changing my bike life and riding for BIKERS FOR CHRIST. I do we need this. It is a positive way to live and our RIGHT HAVE SERVICES IS LEGIT. I reached out to my mother and had books sent in and also ones IN SPANISH. IT IS NOT RIGHT TO segregate them or leave them out not having reads for them especially religious Reads. I got the pastors Name and Number along with reached out to Sheriff Atkins who is a good caring man. to get a pastures Name. That being Pastor Morris out of ST REGES. We asked what kind of interest there was and I had 14 out of a 16 MARU POD that all wanted and needed the word of GOD. He came and get a Back ground check and that's all. There were a few other pastures in the area that said the hustle to try to get in here is always a head ache and closed door. Maybe the devil is here after 3 deaths and an escape or lets say a walk out. Then I asked numerous times and I heard the excuse no room or place. Well there is a whole indoor or outdoor Rfc when weather permits. I had to push to get bible put in that were just sitting out in rally port. And get an out side church to get the word thru bible s. in. All other has been denied or deprived of U.S. This is against our rights and illegal and we on ones needs to

Being an inmate should not be a constant battle. We are people humans and believe it or not for those that are not educated, we have right to alot more than you think. We should not be punished for lack of knowledge or education. These are services and one on ones that are in every county Jail that house over a certain amount of people. These are state and Government laws and not Countys. The state OWNS all Countys! We are all tired of the BS that goes on here!

### Statement

I, Gregory W. Herron/Inmates Hereby file a Grievance for the following  
reason(s): [Be Specific. Include dates/times, Officers involved and/or witnesses if applicable]

mental Health - mental health meds - mental health council  
Went to Doctor To get labs Done for Cancer and get back on mental health  
Meds (Severe Depression, mood swings, crazy thoughts, racing thoughts, OCD) was diagnosed  
with depression, OCD, ADHD was seeing Doctor at 3 Rivers Mental Health also diagnosed  
out of RIMBOCK in BILLINGS MT treatment facility and hospital with mental  
health problems. I started putting in kites on 3-24, 3-28, 4-7, 4-8, 4-9  
4-21, all regarding my terminal Cancer CLL Chronic Lymphocytic Leukemia which  
I had just quit Yemo prior to arrest date. I informed them of my mental  
health state and cancer in Booking from day one. It took multiple kites  
to be exact filed basically begging to see a doctor. I received 0 responses  
any of those kites. That is neglect and not acceptable, my Health is as  
important as there own. The excuse I got was my file was so large due to the  
cancer that it was taking a while. That is a blatant lie the hospital has  
informed myself and family of all the dates and details of the  
truth and the physicians and staff will be brought into court to  
testify the truth by a lawyer when time comes. THIS whole time I  
have you know that I was put on new Psychotropics for my mental health  
for a trial period. PROZAC, and another I think Hydroxamine but after a while  
it was horrible, suicidal thoughts, dreams hanging myself in detail off the top  
runk, stopping out in front of semis on freeway, I put in kites from 5-12,  
5-15, 5-19, 5-23 got one response on 5-23, 5-28, finally got me back in to the  
doctor after all the types of mental suicide confessions being edgy with  
others (no physical) to get meds changed after basically begging. CO Chatterly  
CROMERY, CO MAY, CO LOWRY, CO Ratliff. My medical kites were not being  
looked at or read by a certified physician, waited over 7 weeks The doctor  
wanted me back in 2 to 3 weeks had a suicidal mental break down CO May  
just threatened me with lock down. It was 11:00 PM I HIREADY was and then  
threatened me with confinement and suicide watch, nothing else. The process  
I was begging to change was being neglected and afraid to quit do to

oh and I was reassured I would not lose my inmate worker status

the right with out him

Skye Nelson was denied mental health the whole time

oh and I was reassured I would not lose my inmate worker status

think that is what I was worried about

20. Rizzy came to me after the episode had been revealed to my doctor at the hospital CO. Ratliff was present in the room with me which is also illegal and against HIPPA which my security and the doctors was fine I was belly chained, hand cuffed and leg Irons on. My doctor, and I have the right to patient doctor confidentiality. HIPPA - especially my mental health. SO the doctor and Ratliff were appoled by CO Mays actions and when this was brought to Rizzy By CO Ratliff she came to me in the laundry room and asked me on the situation and said it was unacceptable Mays actions and said me and my incident would be training as what not to do. I would be training as what not to do. I guess I am just inmates are test dummies!

medications (psychotropic)

I was put on a new mood stabilizer and anti depressant and have been told BY MY that these meds need to be taken on a regular time and consistent. They are prescribed as follows.

3 times a day  
every 6 to 8 hours

• MY DOCTOR called in an SPOKE TO CO CROMERY and he was told the importance of that. The jail was also told that the dosage was going up so keep that in mind and go on ever six hours at as needed

FOR the last 5 DAYS I HAVE NOT GOTTEN MY AFTERNOON MEDS TELL WAY LATE.

- How is a body supposed to balance out and get on a stable chemical balance when these directions are not being followed.
- Again there is no one here at this jail or a CO that is a doctor or Nurse or can speak for one or make there own decisions on dosage and times.
- the 11<sup>TH</sup> of June threw the 15th any were from 2 to 5 hours late or variance from the set schedule of 3 times a day THAT IS WRONG AND I GET LOCKED down from a verbal confrontation with CO RIZZY that's BS
- This is a new med cuz I had suicidal thoughts and a hell of a ride do to the prolonged time 7 1/2 weeks on Prozac (a trial period of 2 to 3 weeks and a follow up) But was not gotten back to the doctor again until I was suicidal do to meds

This is for life and I get thrown in  
confinement and 48 hr lock down because  
I need medical attention. This is all noted  
by hospital & Doctor there. OH AND me  
having to use 3rd party to get doctors  
appointments! wrong oh so wrong.

They CO Scott and Riezy said it was not a emergency  
or life threatening or dangerous so they will  
try to get me in in the next couple weeks. Why  
so it dries up and that. Well FYI It is detectable  
by BLOOD DRAW (samples) I need to see a  
doctor this is life long and they are not doctors.

I, Gregory W. Herron/Inmate Hereby file a Grievance for the following  
reason(s): [Be Specific. Include dates/times, Officers involved and/or witnesses if applicable]

RULES / Hand book not updated

The fact that you all chose to reopen a  
Jail that has been shut down for along time is  
not our problem. The fact that you put the cart in  
front of the horse by not having staff properly  
trained to follow the rules you have provided  
us inmates. Again Not our fault. If there  
is not the money or were abouts to get what  
you say will be issued per your hand book.  
Again not our fault we are following the rules  
and going by inmate hand book. The laundry  
(sheets and pillow cases and towels are now  
being done Weekly. Cuz I as an inmate worker  
started doing it at my own will - TOOK LEAD ON  
THAT - do for staff not knowing the rules  
of the hand book you all hold us to knowing  
and following. If we break the inmate rules  
in your Handbook per the Risk we get  
in trouble / locked down / writes up that stay  
on our jacket or others. As not having  
a Sanitary place to put our Commissary in our pod is  
wrong. Our Commissary being stored in the janitors  
closet with all the chemicals and cleaning supplies is  
wrong. I was taught to put the horse in front  
of the cart. Have all my orders and affairs in order  
before I take on a job. Better Results. THE HANDBOOK  
BEING OUT DATED IS NOT OUR FAULT. That  
should have been updated before reopening  
the Jail thank you Inmate HERRON

March 13th day. I was brought in,  
 Mrs • multiple medical kites have been put in  
 3-16-2022 to get seen by medical, for initial intake,  
 to let them know any or all prescriptions  
 an inmate might be on or need. I  
 5-21-2022 have Cancer CLL Chronic Lymphocytic  
 Leukemia and they were told that immediately  
 5-26-2022 upon my arrival and I have still yet to  
 5-27-2022 be seen by any medical Physician.  
 • finally got a respond about Medical Kite  
 today and they asked me what I needed  
 medical for. After getting uptight and  
 having to debate with the guards about  
 my medical condition the Bring me a  
 medical release to be seen by the  
 Mineral County Hospital / clinic after  
 getting my medical records. 3-28-2022  
 • Hopefully going to get medical care.

### Violations

- no medical care or intake in a timely manner
- not giving meds on time after called in by Clinic
- not seen for medical issues (inmate fell in

March 13th. PREA Prison Rape Elimination Act

- When I came into Block on Tuesday th 15<sup>th</sup> and I noticed the showers. They were blocked with dividers that have holes in them from top to bottom, giving the inmate in the shower no privacy and one of the panels that is supposed to be on the end is not even there giving every one in the day room clear vision to the inmate in the shower, if they choose. This is a small jail and the bubble also has 911 dispatcher in the bubble and they have a straight view as well as the guards in the shower. that is not right & violates my/our privacy. Two days after being in this block we we cell/pod searched. We had towels tucked in the holes to provide us with privacy and after our cell/pod search they took all our cover down and we got locked down for violation of jail policy / which we should not have to be watched as we shower by other inmates or jailers or 911 dispatchers. We said that was not right and they said they would look into a solution and they still have not. We took it upon our selves to glue pieces of news paper over the holes with tooth paste to give us some privacy. Still leaving the big hole where the side panel is supposed to be open for others viewing. This is violating my rights: Pictures →

• from day room and the bubble and

911 dispatcher. All those holes give anyone in day room or bubble or the 911 dispatcher a straight view at inmate in shower. Note again we got locked down when we put up towels for privacy and it's now the 1st of April and the problem has not even been looked at or taken care of. We are waiting to get in trouble for putting paper over the holes there is plenty of view for the guards to see the the inmate in shower is not in harm danger of hurting themselves, just like every other jail. not a clear view of them showering

These are all things that break the PREA code and are not exceptable or things that we should be punished for or preyed upon like sexual animals or predators.

nach 13th. Since I was brought to this facility I have been asking on why it is so much more to call from this Jail than it is from any other. This Jail uses Turn Key for commissary which alot of places do. How is it that they can charge a ridiculous amount over 90% profit off items that other places charge normal prices for. example one top ramen soup is \$1.00<sup>00</sup> that is crazy and extortion. The phone is .50¢ per minute to talk to my family they are extorting my family to talk to me. My family wanted to help out and order me some commissary over Turn Key on the internet and they charged them \$8.95 cents, Nine dollars to make an order for me for christ sakes if we did that to the public we would catch a felonie charge. This is

extortion & illegal call. So If my people want to add money to my account add money for chrips Sakes on the internet threw turn Key they charge them 8<sup>95</sup> to take our money also illegal So if my family wants to put \$10<sup>00</sup> on my Books they will be charged \$18<sup>95</sup> and only \$10<sup>00</sup> of that will be on my books but they will be charge \$18<sup>95</sup> again extortion. We might. There excuse for not switching to the new phone system like all other jails is that it will cost them to get out of their old contract. Well maybe they should of thought of that before they took on the Federal Contract to get Federal funding to house Federal inmates. They need to comply with rule if they want free federal money again robbing my tax paying peoples pockets We need right full reasonable phone calls and commissary. a little profit is one thing but raping and robbing our people is wrong.

We are being charged for Toilet paper I am a very good inmate/never had a write up in any of my Years of jail or incarceration so why and the heck would you charge me for toilet paper when it is noted and documented that I have cancer and stomach problems and use the bathroom alot. To charge me to use the bathroom is ridiculous & that is what they are trying to control my amount of toilet paper and how many bowel movements I have. That is restrictions. NO hair nets being used by food service prep. There has been multiple hairs of all sorts and colors in our food and eat trays. Our mail is messed with and not sent out on time is held depending on its content (nothing illegal or law or rule breaking by us) or who it is to, also illegal. They are housing federal inmates now so they need to abide and provide all the things that the federal guidelines say in the contract. These all need to be addressed they can not do as they are doing to us these are all illegal actions. This letter is going out to multiple people so it will not go by

the wayside. We are paying for the rules we broke. We made bad choices that does not make us bad people. And if we held up your mail on the streets its a charge, if we robbed you or extorted money from you on the streets also illegal breaking the law.

I do not need to go on you all are smart + its right, from wrong. Thank You for reading this & we await your actions this matter especially this PRA will not go away we have and are still continuing to be violated in that way.

Thank You from us all

Date 11<sup>th</sup> UPDATE OF TWO CHANGES AT THE Mineral County Jail, JUST MORE VIOLATIONS:

- medical. Greg Herron had to file a Medical Grievance after finding out that four medical Request Mandatory CT SCANS were denied by Under Sheriff Cashman and CO Rizzy. CO Ratliff was told after written Request was filled and denied twice to call the Under Sheriff Cashman Right then and there to get CT Apraxia and they both denied over the phone.
- I was put on @PYCOTROPIC meds Prozac for follow up in three weeks on 7 1/2 weeks later after suicidal dreams for over 10 days Hysterical Crying and mental break down and threatened to be on suicide watch finally got a dr. @Postment
- Denial of meds do to cost
- Lost Job do to making calls and helping out Skye Nelson to get boddied after CO SCOTT & RIZZY told CO Ratliff that I could not help nor could Edward Dampschen or we would be punished.
- CO SCOTT and CO RIZZY Both slandered and defamated Skye Nelsons character to the bonds men enough they would not bond him Horrible things were said to Nancy Skyes Mom on phone without there knowing it was her.
- Horrible slander on Skye do to there Judging

- Not enough seats at tables to eat at Houses 16 Inmates BLOCK C
- Only 12 seats at tables
- Square footage per person or inmate is not per Code - legal code
- No ventilation system that works
- AC DOES NOT WORK.
- NO FREE AIR RETURNS OR FRESH AIR Intakes in block C
- Only Recycled air
- Air system is contaminated with dirty air and Black mold
- C Block Black Mold
- NO DISINFECTANT or germ killer of any AIDS or STDs OR CAROTINAS Only simple green.
- NO GERM KILLER only little Wipes in laundry.
- Still no soap ordered, Broke washer, Broke dryer
- Was supposed to Go TO MSP 7 weeks ago but they knew nothing of my Cancer. This County did not want to pay for my CT SCAN.
- THAT I 2 months I could have clear conduct off Fish Paw doing
- affordable phones
- affordable canteen
- mail held up stars

Charged  
for

toilet paper / tooth Brush / soap / shampoo  
and white paper per roll, per bottle, per brush

Commissary

They get Dollar Store glasses and keep them in the  
janitors closet in a box and when we order them  
on commissary they just put it in the bag when it  
gets here and charging us \$8

Blank paper they charge us for it and then  
put it in our bag when it gets here

I had a whole bunch boxes of new paper to  
donate denied. It was from my girl's work  
they switched systems and this was 11 1/2 x 11 1/2  
space and the new printers did not take it  
so she got three boxes brand new ones  
and the Jail said no and did so so they can  
charge us a sheet

Food:

our food / commissary is stored on the janitors  
closet with all the chemicals

- open tortilla bags

- we have no place to put our commissary it  
goes on the floor cuz no fotes or enough room  
on the little table to store it all and still  
try to get up on bunk.

- Not enough tables for inmates I had  
to eat on the floor when I got back to  
population

timed  
pod  
checks  
and  
rounds

They do not do walk grounds or timed rounds or POD/cell checks. It is very plain to see why 3 people have hung them selves and 2 have escaped. They know they have Mental health inmates here that some are on old meds and bodies used to it. Others are on new meds, new dosages and trying to balance out there brain chemistry and they do not do Rounds every 1/2 hour Every hour. Sometimes we only see them at meals / clothing pass or if you pester the Fuck out of them on the P.F. BOX (Push the Button) every other jail has a word that is issued to each CO and that is there and they touch it to a puck at the end and bring of each cell or floor. It logs there rounds and documents the times and amount of Rounds.

This is negligence / flat out lazy and wrong in every way / a person could slip off bunk, fall, faint, have reaction to med. attempt suicide and they would never no till it was to late or an inmate saw and reported it.

I Gregory W. Herron and every other inmate in this jail is being violated, watched by 911 female dispatchers / 3 CO's Females / 4 male CO's and the other inmates. I am tired of being prey upon by eyes of Females / Inmates going back and forth to court 1, 2, 3 day (short timers) that are held in booking then down thru the pods and double doors to court then back. You never know when, who or what is going to be coming thru the doors. B Block Same way / C Block the cell I was in 24 hr camera. Can be seen by kiosk visits / other inmates and all staff listed above and Now I am in D Block and it is even worse as far as the view in the bubble to showers. impossible to get in or out without being seen / get to your towel to dry off. This is every block in the jail for males. So wrong I am not pray or do I need my self worth to be toyed with by the viewing of me naked. Wrong Wrong Wrong and I can not even call help my mom has had to cuz none of the numbers work / what if I was

This is regarding my meds tat i was put on that are new mental health meds and are not right.. I needs to get to the doctor and get them changed i have asked plenty of times and the proper stuff is nt being done. I aslo had labs taken over three weeks ago and have still not been taken to the doctor to get the results. This mental health and lack ther of is not a joke there is not a person,co that is a doctor here and no one qualofied to talk to here about mental heaith and this stuff is seriose. All the papers have been fille out and done.

I dont understand that response they wanted more doctors info last week now they need to look at charts the lab results have been back for weeks now and the med they put me on are wrong so i do not see what needs to be done other than an apointment made It is illegal for them to tell lab results or go over them with any othe than myself. Labs also can not be taken with out the results that were requested Gone over with the patient especially with my cancer

The phone prices, are crazy and rediculouse It is not our fault that you guys do not want to brake your old phone contract with the company you have, because of the cost. That is not our problem It is .50 cents a minute to use a phone card. It is .25 cents a minute to talk on a pre paid account that our people set up on the outside. For them to add more money when ther funds are low it then again, every time charges them 5.95 to add more phone time. This is evertime they do it. And it is crazy that evey week mainly on sunday the phones wont allow us to call out using the pre paid accounts set up by our people -- as in a collect call--. Those calls are .25 cents a minute. We can only call with a calling card purchased on this end which is .50 a minute.----huh crazy, and how convient. There was a jail, prison communication act passed that you must provide a affordable reliable way for or people to talk to there people. Every jail in montana has this affordable line of communication why is it not here, this is extortion and illegal .. Please and thank you we as inmates would like this fixed as well as our people, love ones and kids. If ou have kids you would not want them and yourself extorted on prices-robbery done to them. Thank you

Amazon , barns and nobile, and wall mart. My mother was told over the phone by co rizzy that it cost the jail to much time and money having co's open packages that come in the mail paid for from our people opened and handed out to us. We are reachin out for help with all types of addiction and are being denied . This jail offers nothing Please can we adress this we are all addicts reaching out. the male Officer was able to verify the situation we will make a medical appointment for you as soon as we are able. This is not an emergency medical situation and will not be addressed via the ER.

As for the gloves, once again, there were xl gloves available at all times. You have not perviously claimed any latex allergy to any staff member nor the clinic/doctors office.

Cleaning supplies have been and remain available to all inmates at any time (except lockdown hours) upon request. The cleaning supplies include an all purpose cleaning agent.

Per cashmans response an inmate can not follow rules and orders of a hand book if the information is wrong, old and outdated. I was told the hanbook is old and needed to be updated. And yes i am a smart man and no better to open a facility, buisness or jail whith outdated, old info and or in this case handbook . The propper info gives us the propper way and to who to follow rules and orders on greivances

The mail, whynis it that our mail goes up stairs to the court house and sits till there is enough in your guys eye to send out mail should be sent out every day especially when the post office is less than 50 yards from here. My people, and daughter get mail here in four days and it takes sometimes up to 12 to 14 days for our people even lawyers in missoula to get our mail. Then all the sudden they get 3 letters the same day that is wrong and ilegal to mess with our mail hold it till you see fit. Our lawyers are not getting mail on time here in montana . That is wrong This has been asked and complained about by every inmate not just me.

The hand book for this jail says that we are to have a tub for our mail, personal property, and weekly clothing amount given. We order comisarry ever week and it has to go on the floor do to no bin to put personal food and property in. There is not enough shelf space . That is unsanitary. The sargents name that we are supposed to direct out 3rd stage greivance is wrong, per the handbook, visits are not on given as per handbook, the shhets and pillow cases are to be exchanged fresh weekly per our handbook. The handbook is so full of outdated info. Basicly lies of to our rules and things we are supposed to be issued

Mr. Herron,

If you would like a doctors appointment, please send in a medical kite and we will go though the process to get you an appointment. Having your mother cali the clinic for the clinic to call us and make you an appointment, is not acceptable and we will not make any appointments requested in that manner.

Your last medical kite was on 7/13 in reference to your foot. This was resposed to and taken care of. You did not at that time want to go to the doctor. You declined medical help for this issue when it was offered to you. If you are having any side effects from these medications or thoughts that need to be addressed, you have not brought these to our attention through a medical kite. The propper procedure for an appointment IS to file a medical kite, in which we will then take the appropriate action needed. At no time were you told that your mom can get appointments made for you, this is not the procedure you were told to follow. You were taken to the doctor about your invasive thoughts and have recieved medical care for that. Since then, you have not informed us through a kite of any further issues. A medical release for your mother to have access your medical information, DOES NOT grant her the authority to override our procedures. If/when you would like an appointment, you can follow the same procedure as every other inmate.

Furthermore, please consider this a warning. "Inmates are to use appropriate language when submitting kites. Profanity and threats will not be tolerated".

In your kites you state "So why the fuck would it all the sudden work now", "this is not a road you want to go down i am tired of the unprofessional bullshit of this place", co scott is not a dr, or profesional of anything in that matter and has not right even answering kites"

You have clearly used profane language and have shown disrespect towards staff.

Please refrain from any continuation of this and keep your kites appropriate.

When i am supposed to be back to see a dr in a time frame of 2 to 4 weeks and it has been over seven weeks that is not on me. That is the lack of medical servise of this jail and going directly against drs. Orders, So there for my dr is wondering why and you had my mom sign a form for this lack of comunication. So 1 you dropped the ball 2 Do not tell me or my mother we can not talk to our medical professional after you had me fill out a dr. Release of info for my dr. Megan. 3 there is not a medical proffesional in this jail, or qualified per the rules, hand book . 4 I am weeks past do of my return date to see how meds are working. Again megan my dr. Ask co ratliff if he understood the need for a return appointmant. He said yes and i also had it noted becaue huh i new his would happen. So Is it understood that again you all do as you feel and go against drs. Order all the time This is my mental health yo guys Fuck with and that is so wrong.

Case 9:22-cv-00189-DLC Document 2-1 Filed 12/07/22 Page 80 of 126  
\* to where I am not going to outline all the lies and false statements you will all see thank you so much

"Inmates are to use appropriate language when submitting kites. Profanity and threats will not be tolerated."

"If an inmate is prescribed a medication or treatment, it is the inmates responsibility to take the medication or complete the treatments."

2) No one is saying your mother can not talk to the doctors office about your medical condition. That is completely up to the clinic. However, your mother can not request/schedule a doctors appointment for you. You are in the custody of Mineral County and therefore we are the only ones that will set up your appointments. Your medical release was between you and the doctors office. We do not give out any private information over the phone to anyone. We also are not a repository for your medical records. The clinic retains your medical records.

3) You are correct that we do not have a medical professional IN the facility. No where in the handbook does it say that medical kites will be responded to by a qualified medical professional. The only reference to a health care professional is that "inmates will cooperate with health care professionals and refrain from foul or abusive language". As that we transport all inmates to medical appointments we have an interest in making sure inmates conduct themselves appropriately while at those appointments. \*it says it right in hand book qualified medical professional

4) We will verify with the clinic when your last appointment was and what the purpose of that appointment was. If you were taken to the doctor and did not discuss side effects at that time that is on you. When you are at the doctors office you are free to discuss any medical concerns you would like and that the doctor cares to entertain.

5) as for your "meds being wrong". You have refused your lunch med and pm med the last 3, going on 4 days. (8/6 lunch and pm, 8/7 lunch and pm), 8/8 pm) This is your choice. We will not physically force you to take your meds. As the handbook states "If an inmate is prescribed a medication or treatment, it is the inmates responsibility to take the medication or complete the treatments".

6) I am not aware of the doctor ever stating that you should have your mother call them to make doctors appointments for you. If this is accurate we will gladly correct the doctor and advise her that she also does not have that authority. She does not work for Mineral Co. Sheriff Office and has no sway in our policy or procedure. \*The hospital had us fill out a form

As for your concern of Ofc. Scott answering kites... All Officers are authorized to answer kites as needed. More so, Ofc. Scott will be answering many kites, especially medical kites, as she has been assigned to take the lead on scheduling medical appointments as needed. Once again, we do not have medical personal on staff nor are we required to. Ofc. Scott is not diagnosing or treating anything, she is simply evaluating your request and taking appropriate action. I will not take direction from inmates on what duties Officers can/can not do.

Herron,

1) We have not recently recieved any medical kite requests from you or calls from your doctor for a follow-up before today when your mother requested one. You also have not sent any medical kites in reference to having any adverse side effects to your meds. Now that you have requested a medical appointment, though disrespectfully, we will schedule you one.

If you continue to have questions on the proper procedure for requesting a medical appointment please refer to the Inmate Handbook. Under the medical section it specifically states -

"Inmates have the oppurtuiny to request medical assistance through the kite system."

"Inmates MUST fill out a medical kite stating their health concern"

"Medical requests not made on medical kites may not be answered"

i am wondering what the excuse is now on the mail. My mother sent money and a card just as she always does last week, the aug 4th from michigan just like she has for the last 5 months i have been at this jail. She gets a receipt for it always and it was received at the post office across the street on wed. The 10th, this b.s. Of not giving my mail is wrong against the law and messing with a tax paying citizen of 60 years money and mail. Just because rizzy and tiffani got there --s handed to them for there bs with the inmates does not mean they can mess with my mail. It is now the 12th of aug and the mail key is mysteriously missing and my mail and money is no were to be found that is b.s. Also the fact that rizzy lied about my mom calling here to make me a drs. Apointment is also wrong and defemation of character, She did not know what the hell she was talking about and she even ran her mouth in a mail to me that proves it. Again i do not who or what the staff at this jail are or why they think thy can constantly brake the law rules and pull this crap. Your staff is under trained, and so out of line as in rizzy, scott and tifani it is a joke and all this is going way further than this i have done over 15 years and never seen a bigger joke than this We have right you better know that and they will be inforced You all are not untouchable the supreme court is gong to love this stuff The good old boy days are over. It would be cool if you would come talk to us once and a while just like every other higher up does to see what can be improved. You no the sad thing is you all could learn alot from some of us. A closed mind to me is only ingnorance . My mother will be in contact with you for your staff Rizzy lieing about drs statement. Rizzy has no right to disrespect my mother of the state of montane for 77 years. No one does she deserves respect

i want it clear for the record that when i said this will be hadled i mean as in excercizing my rights as a human, in the cival court that i have cival rights and so does my mother. This stuff should never even come up no other jails, missoula, bozeman, butte, kootani county-idaho- has these types of problems or conversations and i have never filed a greivance till this place those things should say some thing. Nothing i said was a threat just my rights that are being filed with the united states district court Under 42 u.s.c 1983 filling I want that clear so my words do not get twisted around. All is i want is the money my mom sent and card so i can get phone time to talk to my daughter, so seems how i still have not got my money my mom had to put money on over the kiosk with a credit card which charges an extra 8.99 so 40.00 now cost her 48.99, so wrong, we plan ahead to avoid these extra charges. And also my mom has had a po box here since 1964 and has two keys and at one point in time three for our box for us kids you think a jail should have more than one.

Under sherif cashman,

the living conditions in your jail are inhumane, do to the heat in the block and cells. It is over 80 degrees in those cell, especialy the 4 man cell. This is inhumane, against our cival rights and against so many laws. As you already no, the air- free air- circulating air does not work. The smoke screen bs that was do e last week about the thermastat in the hall broke nd moving it into c block was a joke and you know it. This stuff has not worked as well as the heat this winte, since you all opened the jail and that as well you know. We have suggested 4 different ways to help 1 The odviose and cheep is buy more fans 2 have doors pop at 6 am and lock down at 11pm to give people more time out of thosr rediculouse heat conditions 3 open the outdoor rec door at night to draft more air in to the building 4 Leave our cell doors open t nighg to kep ir flow in cells. These doors in c block have no bean slots and it gets zero air flow in the cells. 5 the odviose fix the problem that has been broke for months. The train wreck and courds and piss por solution are rediculouse. You or your kids or familys woud never handle or put up with this. We are humans, have cival rights, are not trash as treated by you all do to our being locked up so lets be part of the solution like you said you would when you took your oath. To provide a safe, healthy posative environment for these inmates to help them on there start to change and reinagrating back into society. As posative, productive members as all judges ask of us at sentencing. The countless very professional kites, greivances constantly ignored or not responded to by you and staff show that the last three sentences are not your mision Thank you

## Inmate Grievance Form

Name: Gregory W. Herron

Date: Oct 17th 2022

Time: 8:30 Pm

Att: Under sheriff Cashman

Att: Sheriff Toth

### Statement

I, Gregory W. Herron, Hereby file a Grievance for the following reason(s): *[Be Specific. Include dates/times, Officers involved and/or witnesses if applicable]*

Religious Chorse / Kosher Diet

In regards to the slap in the face on our religious chorse and total disrespect of a Kosher Diet, do to the religion we have chose to follow. How can you be in a position of Law and not know the laws. The laws and our civil rights have been stepped on, disregarded, broken, twisted, ignored and thrown in our faces. As if we are caged animals being cared for by people of vigilance with no cueth of our well being. (We are Citizens of the United states). The straight denial of religious services of any type have been ignored for over 7 months of my time locked up in Mineral County Jail. It is not my job or any family members of incarcerated inmates of this facility to find pastors, recruit pastors to come in, find members of any church to come in and volunteer services. Even though my mother did find 2 pastors & every excuse and denial were the only out come. That neglect and denial is on You and your jail along with multiple excuses from CO Rizzy. So many services have been asked for in every way possible (all documented on paper). Yet only to get closed doors, excuses, lied to and denied. I as well as many inmates have been denied this for way to long. Now our religious chorse is being thrown in our face in so

continued on back →

many ways. Under Sheriff Cashman your word is a joke, you are full of lies and deceit. You continue to let your CO's, with your guidance violate our Civil rights, religious beliefs, disregarding so many laws, rules as well as regulations it is crazy. You also do not even take the time to answer Grievances that are taken through every step ending with no response from you. This form is illegal & not the proper Carbon copy Grievance form used for exhausted rights. All of my Grievances have went through every step again ending in neglect by you. I writing my final Grievance for I know this will be ignored and pushed under the carpet. This denial only show admittance of guilt on the jail's part and one more neglect on your job as an under sheriff. These will all be filled to the proper people who will take then next steps to protect our civil rights and see they are met.  
Thank You Greg Herron

Our Kosher diet is not being prepped, followed, delivered, or proper foods served, in any way. Acceptable foods, proper way of making, prepping, and serving have been kindly given in a kafe but still totally disregarded.

**Subject: Grievance religious diet**

**Date: 10/17/22**

---

Good Morning Mr. Herron,

In regards to your grievance concerning religious choice/Kosher diet. You and your fellow inmate Joe Morgan have chosen to convert to Judaism and have requested a kosher diet. It was approved and you both have been provided kosher diet meals since your request, which since the first day have traded away the kosher foods to other inmates, so please let's be honest each here. As for your other grievances concerning religious services, don't you find it strange that another inmate receives holy communion on a regular basis since he has been here?

We do not dissuade religious services of any accepted faith, you and I have had this discussion before, it is not my job to recruit pastors or religious leaders to come to the jail, we have a Chaplin that will come at almost any time, I believe he has spoken with you before at your request, so once again let's be honest with each other here. If you request a specific religious leader, just as you requested a kosher diet, it will be approved, the leader will have to pass a background check to be admitted for access, it is as simple as that, but you know this already so lets again be honest with each other here. You are more than welcome to file whatever you see fit to file with whomever you want to file it with, it will not change the simple facts is all you have to do is request a specific religious leader visit and it this will occur will, just as we have discussed in the past.

- \* Facts one guy talked to me 5 months ago and said he would come back and make arrangements with jail to do services - nothing
- \* Why is another inmate Joseph Morgan getting singled out by name in my grievance
- \* They are not serving us our kosher diets in accordance to kosher guidelines
- \* Specifically still serving our food on the same trays same ways as for the last 7 months
- \* What does holy communion (who we do not know) have to do with us
- \* I only gave away Jello one time cuz I will not eat horse hooves - feet
- \* There is nothing against my kosher guidelines that says I can not give food away to another starving inmate - do to lack of food
- \* They still have not provided us with a torah
- \* They have never seen anyone for religious services
- \* Thank You just more facts for you

# Certain food combinations are strictly forbidden

Some of the main kosher dietary guidelines ban certain food pairings — particularly the pairing of meat and dairy.

There are three main kosher food categories:

- **Meat (fleishig):** mammals or fowl, as well as products derived from them, including bones and broth
- **Dairy (milchig):** milk, cheese, butter, and yogurt
- **Pareve:** any food that is not meat or dairy, including fish, eggs, and plant-based foods

According to kosher tradition, any food categorized as meat may never be served or eaten at the same meal as a dairy product.

Furthermore, all utensils and equipment used to process and clean meat and dairy must be kept separate — even down to the sinks in which they're washed.

After eating meat, you must wait a designated amount of time before consuming any dairy product. The particular length of time varies among different Jewish customs but is usually between 1 and 6 hours.

Pareve food items are considered neutral and may be eaten alongside either meat or dairy.

However, if a pareve food item is prepared or processed using any equipment used to process meat or dairy, it is then reclassified as meat or dairy.

## **SUMMARY**

Kosher guidelines strictly prohibit the pairing of any meat and dairy product. This also means that all utensils and equipment used to prepare meat and dairy must always be kept separate.

# **Only certain animal products are permitted**

Many kosher rules address animal-based foods and the ways they are slaughtered and prepared.

Dairy is treated as a separate entity and should never be consumed or prepared alongside meat or meat products.

Fish and eggs are considered pareve and have their own sets of rules too.

## **Meat (fleishig)**

The term “meat” in the kosher context generally refers to edible flesh from certain types of mammals and fowl, as well as any products derived from them, like broth, gravy, and bones.

Jewish law states that for meat to be considered kosher, it must meet the following criteria:

- They must never be mixed with any meat-based derivatives, such as gelatin or rennet (an animal-derived enzyme), which is often the case with hard cheeses and other processed cheese products.
- They must be prepared using kosher utensils and equipment that has not previously been used to process any meat-based product.

## Fish and eggs (pareve)

Although they each have their own separate rules, fish and eggs are both classified as pareve, or neutral, which means they do not contain milk or meat.

Fish is considered kosher only if it comes from an animal that has fins and scales, such as tuna, salmon, halibut, or mackerel.

Water-dwelling creatures that don't have these physical features — such as shrimp, crab, oysters, lobster, and other types of shellfish — are not permitted.

Unlike kosher meat, fish don't require separate utensils for their preparation and may be eaten alongside meat or dairy products.

Eggs that come from kosher fowl or fish are permitted as long as they don't have any traces of blood in them. This means that each egg must be inspected individually.

Like fish, eggs may be eaten alongside meat or dairy.

## SUMMARY

- It must come from ruminant animals with cloven — or split — hooves, such as cows, sheep, goats, lambs, oxen, and deer.
- The only permitted cuts of meat come from the forequarters of kosher ruminant animals.
- Certain domesticated fowl can be eaten, such as chicken, geese, quail, dove, and turkey.
- The animal must be slaughtered by a shochet — a person trained and certified to butcher animals according to Jewish laws.
- The meat must be soaked to remove any traces of blood before cooking.
- Any utensils used to slaughter or prepare the meat must be kosher and designated only for use with meat and meat products.

The following types of meat and meat products are not considered kosher:

- meat from pigs, rabbits, squirrels, camels, kangaroos, and horses
- predator or scavenger birds, such as eagles, owls, gulls, and hawks
- cuts of beef that come from the hindquarters of the animal, such as flank, short loin, sirloin, round, and shank

## Dairy (milchig)

Dairy products — such as milk, cheese, butter, and yogurt — are permitted, although they must adhere to specific rules in order to be considered kosher:

- They must come from a kosher animal.

Kosher guidelines limit the consumption of animal-based foods to specific animals and cuts of meat that are slaughtered and prepared in a particular manner.

## Guidelines for plant-based foods

Like fish and eggs, plant-based foods are considered pareve, or neutral, meaning they do not contain meat or dairy and may be eaten with either of those food groups.

These foods also have their own set of kosher guidelines — especially regarding how they're processed — although these guidelines are somewhat less restrictive than those for meat and dairy.

### Grains and bread

In their purest form, grains and grain-based foods are considered kosher. However, certain processing methods may ultimately deem them not kosher.

Processed grain products such as bread may not be kosher as a result of the equipment on which they're processed or the ingredients used.

It is common for some breads to contain oils or shortening. If an animal-based shortening is used, the bread may not be considered kosher.

Furthermore, if baking pans or other equipment are greased with animal-based fats or otherwise used to cook any meat- or dairy-containing dish, the end product is no longer kosher.

Because these types of processing methods are not typically disclosed on a standard nutrition or ingredient label, bread and other grain products must be certified kosher to ensure that the food complies with all relevant guidelines.

## **Fruits and vegetables**

Like grains, fruits and vegetables are kosher in their unprocessed form.

However, because insects are not kosher, fresh fruits and vegetables must be inspected for the presence of insects or larvae prior to sale or consumption.

Furthermore, fruit and vegetable products that are produced using non-kosher equipment, such as anything that processes milk and meat, are not kosher.

## **Nuts, seeds, and oils**

Generally speaking, nuts, seeds, and the oils derived from them are kosher.

However, the complicated processing of these foods often renders them non-kosher as a result of cross contamination of equipment also used to process meat and/or dairy products.

Many vegetable and seed oils undergo several complicated steps before they're considered edible. Each of these steps must be closely monitored to ensure adherence to kosher guidelines (3Trusted Source).

Thus, to be completely certain the oils you're using are kosher, it's best to check the label for certification.

## **Wine**

Like foods, wine must be produced using kosher equipment and ingredients to be deemed kosher. This includes any tools used to harvest and prepare the grapes for fermentation.

However, because wine is significant to many Jewish religious occasions, stricter rules are imposed.

In fact, the entire kosher wine production process must be carried out and supervised by practicing Jews. Otherwise, the wine cannot be deemed kosher.

## SUMMARY

Most plant-based foods are considered kosher. However, they may lose this status if they're processed or prepared using non-kosher equipment.

# Different rules apply during Passover

Additional kosher dietary restrictions apply during the religious holiday of Passover.

Though there is some variation in adherence to Passover dietary guidelines, all leavened grain products are traditionally forbidden.

These foods are collectively referred to as “chametz” and include the following grains:

- wheat
- oats
- rye

- barley
- spelt

That said, some of these grains may be permitted as long as they haven't been in contact with any moisture longer than 18 minutes and do not contain any added leavening agents, such as yeast.

This is why matzo, a type of unleavened flatbread, is not considered chametz — even though it is traditionally made from wheat.

#### SUMMARY

During Passover, all leavened grain products are forbidden. However, unleavened breads, such as matzo, are allowed.

## The bottom line

“Kosher” refers to a Jewish dietary framework for food preparation, processing, and consumption.

Though variations exist, most guidelines forbid pairing meat and dairy and allow only certain animals to be eaten.

Foods not considered meat or dairy are generally accepted, provided they're produced using kosher equipment and practices.

Additional rules may be imposed during religious holidays.

Because of the complexities of modern food production, it can be difficult to know whether many processed foods are kosher. To avoid any missteps, always look for kosher certification labels.

Co. Scott printed these guidelines off today, she highlighted the ones she is going to follow, trying make our meals as inconvenient as possible.. the staff and this facility are not doing anything they are supposed to be doing C.O Scott only highlighted the points as a form of retaliation, serving us salad with absolutely no dressing and noodles with nothing on them, just dry plain white noodles that have been dyed, against our religion, and our civil rights and food guidelines.. she actually smiles and laughed in my face.. when she handed me my meal which today was salad with no dressing, and noodles with nothing on them, completely dry. Then printed this out and handed them to me after dinner was over.

**Grievance Rebuttal G. Herron**

Inmate Herron this rebuttal will cover the grievances I have received from you on 06/17/22.

**1. Phone costs,**

we are contracted with the vendor turnkey. We do not set the rates for cost of phone calls, video calls or any canteen items supplied by turnkey. We provide phone access to all inmates, which is outlined in the inmate handbook.

**2. Church services,**

We do not restrict religious services of any faith, if you have a religious leader he is more than welcome to visit with you one on one in the visitation room, there have been no request for regular religious services to be held in the jail. I have instructed Rizzi to reach out to our Chaplin to set up non-denomination services per your request. If you need a specific denomination please let Rizzi know and we will seek out a pastor.

**3.NA, AA, self-help books and refused packages.**

We stopped all packages coming into our jail based on the security of our facility. The problem arose when the inmates had their family members order items from amazon then the families were mailing in the packages, this is an unacceptable practice and I stopped all packages from coming into the facility. I have discussed this issue with the Sheriff and with Rizzi. I have been persuaded by Rizzi's arguments to re allow books into the facility. Only soft back book will be allowed into the facility again. Amazon is the only accepted vendor for books. You may order coloring books but there will not be ANY colored, pens, pencils allowed in this facility. Period!

#### 4. medicine pass

Prescribed medications are passed at meal times, if you are prescribed meds three times a day you will get your meds at meal times, if you get meds twice a day you will get them with breakfast and dinner, we can make special arrangements for "as needed" meds based on doctor's orders only. As to your doctors' visits, when you request a doctor visit we call the clinic to set the appointment, we

don't dictate the time, date or duration of the visits, the clinic decides their availability..... not you, and not the Sheriff office. The Mineral County Health clinic is our medical provider and they dictate these dates and times.

5. Community Clippers, there are disinfectant wipes available to all inmates, however your point is valid and I have ordered disinfectant clipper spray so the clipper can be disinfected after each use.

A. gloves were on back order and have since come in since your grievance was turned in, these items we ordered in a timely fashion, however with the current supply chain issues, took longer than expected to receive.

B. I have also ordered spray disinfectant for each pod available upon request from the detention officers.

6. your assignment to administrative housing was brought on by yourself, by your actions. My staff is not here for you to argue with. You interjected yourself into inmate Nelson's Affairs which got you moved back to gen population after several warnings. staff. You began running your mouth to Rizzi which lead to your reassignment to delta pod. I am sure you are an intelligent man who is capable of rational discussion with detention staff. You have a grievance process that you choose not to utilized until after you acted out.

## Inmate Grievance Form

Name: Gregory W. Herron / Mineral Co Jail

Date: 6-14-22

Time:

I Received form on 6-14-22 AT 10:00 AM from CO. RIZZY

addressed to:

SGT CROSTICK

Per inmate hand book

### Statement

I, Gregory W. Herron / Inmates Hereby file a Grievance for the following

reason(s): [Be Specific. Include dates/times, Officers involved and/or witnesses if applicable]

PHONE COST - THE CONTRACT - ONLY WORK ON CARD EVERY SUNDAY  
Incarcerated on the 13th of March. FROM THAT TIME MYSELF AND  
OUR FAMILIES HAVE BEEN BEING OVER CHARGED FOR THE PHONES. THERE  
ARE OTHER PHONE CONTRACTS OUT THERE THAT OFFER A MUCH  
MORE AFFORDABLE WAY FOR MINERAL COUNTY INMATES TO KEEP IN  
CONTACT WITH OUR LOVED ONES, FRIENDS AND FAMILY. I HAVE  
BEEN LOCKED UP IN A LOT OF COUNTY JAILS IN MONTANA  
AND ALL HAVE AFFORDABLE PHONE CALLS FOR INMATES.  
A COUPLE YEARS AGO THE PRESIDENT PASSED A FAIR RATE  
BILL FOR INMATES & PEOPLE OF INMATES TO KEEP IN-  
touch. THE REASON MY MOTHER AND MANY OTHER family members  
(DAMES WILL AND CAN BE PROVIDED TO A LAWYER BUT WILL  
NOT BE ON THIS SHEET FOR EVERYONES safety and (HOPES  
LAWS) HAVE BEEN GIVEN IS IT WOULD COST THE JAIL TOO MUCH  
TO BREAK THE REST OF THE PHONE CONTRACT THEY HAVE. THAT IS  
NOT OUR FAULT. That info has been given out by CO's  
over the phone to our Peers and family members. REOPENING  
A JAIL COMES WITH A COST AND THAT IS THE JAIL TO  
deal with not recoup and cover there contract by  
extorting our family members or us. 50¢ A minute is  
robbery. that is the rate for a Phone card purchased  
at 5.00 or 10.00 Incriminate by inmate on this end  
TURKEY. FOR OUR PEOPLE TO PROVIDE TIMES ON THE  
cards they have to set up an account that costs  
8.99 Cents then every time they add money (25¢  
a minute) it cost 3.00 cents to add Times 50 10.00  
of pre paid phone time of 25¢ a minute cost  
them 15.00 to add 10.00 of talk time. When we  
buy the Phone cards it seems that there is weekly  
one day that only cards work so they can for us  
50¢ a minute no pre paid accounts work. That is  
a mistake it is robbery. They need new contract,
